5. Click the **[Download]** in the **[Unidraf2010 Installer]**.

Unidraf2010 Installer		
Update	Version	Revision
Sep.01.2022	2.0	216

* Keep in mind that the update program with an installer includes various data, various configuration files, etc.
* Extract the downloaded compressed file, double-click the "AutoRun.exe", and start installation.
* In reinstallation, because three choices (Modify / Repair / Remove) are displayed, select the "Repair."
* By upgrade of installer software, even if it selects "Repair", it may be unable to update normally. In that case, please select and try the "Modify."
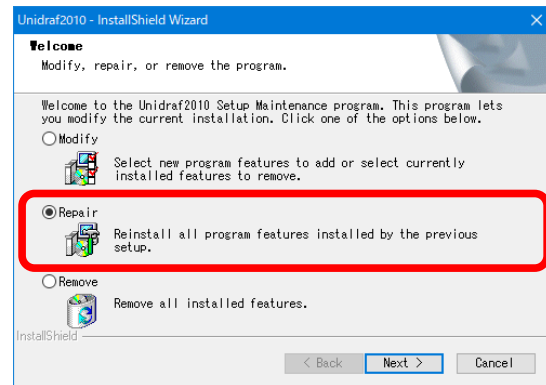

⬇ Download

Unidraf2010e.zip (50,069KB)

6. Extract the downloaded file.

7. Check that Unidraf2010 has closed and double-click the **"AutoRun.exe"** in the "Unidraf2010" folder.

8. Click the **[Installation of Unidraf2010]** and install according to the directions in a screen.

   Default: C:¥Sinwa¥Unidraf2010¥

Unidraf® 2010   Close

>> Installation of Unidraf2010
>> Installation of Sentinel driver

Cautions!!

✓ **In reinstallation, choose the [Repair] in three choices.**

✓ **By having upgraded the "installer software" in August, 2013, although you choose the [Repair] when reinstalling the newest Unidraf, it may not be updated. In such a case, choose the [Modify].**
However, once you update by the [Modify], in next reinstallation, the [Modify] will not work any longer. Please keep in mind that the usual [Repair] must be chosen.

Unidraf2010 - InstallShield Wizard

Welcome
Modify, repair, or remove the program.

Welcome to the Unidraf2010 Setup Maintenance program. This program lets you modify the current installation. Click one of the options below.

○ Modify   Select new program features to add or select currently installed features to remove.
